

BONUS #1 — First Book in 24 Hours Quickstart Playbook

Product: KDP Mafia

Perceived value: \$47

Goal: Login → first upload-ready Amazon book in one day

Who this is for: New publishers, WarriorPlus buyers, anyone who freezes after getting access

Welcome to KDP Mafia

Most people buy a KDP tool, get excited... then spend three days "researching," never publish, and refund.

This playbook exists to stop that.

Today you will:

1. Pick **one** niche
2. Generate **one** book inside **KDP Mafia**
3. Upload it to Amazon KDP
4. Hit publish (or save a complete draft with files attached)

Not a series. Not a brand empire. **One book.**

The 24-hour promise (realistic version)

You do **not** need 24 straight hours.

A normal day looks like this:

Block	Time	Outcome
Setup	20–30 min	Account ready, niche chosen
Generate	45–90 min	Interior + cover ready
Upload	45–90 min	Files in KDP + previewer passed
Polish	30–45 min	Title, keywords, description done
Buffer	1–2 hrs	Fixes if previewer complains

Total focused work: **about 3–6 hours**. The rest of the “24 hours” is breathing room.

Mindset rules for day one

1. **Done beats perfect.** A live B+ book beats a perfect draft in your Downloads folder.
 2. **One niche only.** Decision fatigue kills launches.
 3. **Puzzle / low-content first.** Faster than long ebooks for first publish.
 4. **Do not redesign the cover 12 times.** Clear title + obvious niche wins.
 5. **Use the other bonuses.** Niches (#2), seasons (#3), keywords (#4), KDP fixes (#5).

Before you start — tools checklist

Open these tabs:

- ☐ **KDP Mafia** (logged in)
- ☐ **Amazon KDP** — kdp.amazon.com (account verified)
- ☐ Bonus #2 niches list
- ☐ Bonus #4 keyword swipe file
- ☐ Bonus #5 rejection checklist
- ☐ A notes doc (title ideas, page count, trim size)

Also confirm:

- ☐ KDP tax / interview info already done (or you'll stall at publish)
 - ☐ You know your author name (pen name is fine)
 - ☐ You're publishing a **Paperback** first (simplest path)
-

Hour 0 — Pick your path (15 minutes)

Choose ONE starter track

Track	Book type in KDP Mafia	Best if you want...
A — Fastest	Word Search	Quickest first publish
B — Evergreen adult	Sudoku	Steady adult buyers
C — Kids / gifts	Maze or Coloring	Gift + parent traffic
D — Simple low-content	Journal / Tracker	Fewer "puzzle QA" worries

Recommended for absolute beginners: Track A — Word Search.

Choose ONE niche (use Bonus #2)

If you freeze, use one of these:

1. Cute cats — Word Search
2. Large-print word search (general / animals)
3. Easy sudoku for beginners
4. Dinosaurs — Maze
5. Gratitude journal

Write it down now:

Niche: _____
Book type: _____
Audience: _____
Trim size: _____
Working title: _____

Hour 0–1 — Niche clarity worksheet

Answer these before you click Generate:

1) Who is the buyer?

- ☐ Kids (ages ____)
- ☐ Teens
- ☐ Adults
- ☐ Seniors
- ☐ Gift buyer (buying FOR someone else)

2) Why would they click?

- ☐ Relaxation / boredom
- ☐ Learning / practice
- ☐ Gift for hobby / pet lover
- ☐ Brain exercise
- ☐ Seasonal / holiday (if using Bonus #3)

3) What must be on the cover in 1 second?

Write 3 words Amazon shoppers should “get” instantly:

1. _____
2. _____
3. _____

Example for cats word search: **Cats · Word Search · Adults**

4) Specificity check

Bad: Animals

Better: Cute Cats

Best for day one: Cute Cats Word Search for Adults (Large Print)

Hour 1–3 — Generate inside KDP Mafia

Step-by-step

1. Open KDP Mafia dashboard
2. Select your book type
3. Enter the theme/niche **exactly as you'll sell it**
4. Use beginner-safe settings:

Setting	Starter choice	Why
Pages / puzzles	40–60 (or tool default ≥ 24)	Above KDP minimum, not huge
Difficulty	Easy → Medium	Fewer complaints / returns
Age group	Match niche	Listing stays honest
Answer key	ON for puzzles	Expected by buyers
Trim	8.5×11 puzzles/coloring; 6×9 journals	Common + safe

5. Click **Generate**
6. Wait for the job to finish — do **not** start a second book yet
7. Preview sample pages carefully

Preview QA (do not skip)

- ☐ Theme matches what you typed

- ☐ No cut-off words / puzzles
- ☐ Pages aren't randomly blank in the middle
- ☐ Answer key exists (puzzle books)
- ☐ Looks intentional, not empty junk

If something's wrong: regenerate **once** with a clearer theme.

If still wrong: switch to a simpler niche from the Fast-Start list — don't spiral.

Cover session (30–60 minutes)

Cover job #1: thumbnail test

Shrink the cover on your screen until it's tiny. Can you still read:

- ☐ Main title?
- ☐ Book type (Word Search / Coloring / etc.)?
- ☐ Niche theme?

If not → bigger title, less decoration.

Cover checklist

- ☐ Niche is visually obvious
- ☐ No tiny paragraph text on the front
- ☐ High contrast (dark on light or light on dark)
- ☐ Author name correct
- ☐ No trademarked characters / logos
- ☐ Cover regenerated with **final page count** (spine depends on pages)

Cover formula that works

Big theme word + **book type** + simple relevant image.

Examples:

- CUTE CATS — Word Search Puzzle Book
 - EASY SUDOKU — Large Print
 - DINOSAUR MAZES — For Kids
-

Download / Launch Kit package

From KDP Mafia, download:

- ☐ Interior PDF
- ☐ Cover PDF / wraparound
- ☐ Title ideas / metadata (if included)
- ☐ Keywords / description draft (if included)

Create a folder:

```
KDP-Mafia / Book01-Cute-Cats-Word-Search /  
  interior.pdf  
  cover.pdf  
  notes.txt
```

In notes.txt save: trim, page count, title final, price plan.

Hour 4–6 — Amazon KDP upload walkthrough

Create the title

1. Go to KDP → **Create** → **Paperback**
2. Language = English (or your market)
3. Book title = final title
4. Subtitle = audience + benefit (not keyword spam)
5. Author = your pen name

- 6. Description = use framework from Bonus #4
- 7. Publishing rights = you own the rights
- 8. Categories = 2 strong ones (Bonus #4)
- 9. Keywords = all 7 slots (Bonus #4)
- 10. Age / grade if relevant (kids books)

Upload files

- 1. Upload manuscript (interior PDF)
- 2. Upload cover
- 3. Open **Print Previewer**
- 4. Flip front → middle → end → cover wrap
- 5. Note any errors → fix with Bonus #5
- 6. Re-upload only what changed
- 7. Preview again until clean

-

Pen name & branding mini-guide

Day one you only need:

- A name that looks real
- Consistency across books

Later you can build a brand like "Cozy Puzzle Press" — not required today.

Commercial rights reminder

With **KDP Mafia** commercial access, you can publish and keep royalties per your license terms.

Still never use:

- Disney / Marvel / Pokemon / celebrity names
- Brand logos
- Copied puzzles from other books

Generate original books in the tool. That's the point.

A: Wait. Don't open 5 parallel jobs on day one.

Q: Previewer shows a warning.

A: Open Bonus #5 and fix the matching issue. Re-upload.

Q: What if KDP account isn't approved yet?

A: Finish files + draft today. Publish when account is cleared.
