

BONUS #3 — 12-Month Seasonal Publishing Calendar

Product: KDP Mafia

Perceived value: \$27

Core rule: Publish seasonal books **6–8 weeks before** peak buying

Goal: Never scramble last-minute for Halloween/Christmas again

Why seasonal books print money

Evergreen books pay rent.

Seasonal books create **spikes**.

Parents, gift buyers, and teachers search with urgency:

- “Halloween coloring book for kids”
- “Christmas activity book”
- “Mother’s Day journal”

If your book is live early, you catch:

1. Early planners
2. Peak gift rush
3. Next-year leftover traffic

If you publish Dec 20 for Christmas, you missed the war.

The KDP Mafia seasonal system

Every month, do this:

Week	Action
Week 1	Pick next season's 1–2 niches
Week 2	Generate in KDP Mafia
Week 3	Upload + keywords + categories
Week 4	Start the <i>following</i> season early

Mix your catalog:

- **~70% evergreen** (Bonus #2)
- **~30% seasonal** (this calendar)

 4. Don't overload with 12 icons
 5. Title should include the holiday OR the season word when it's the main keyword
